## EDUCATION

### BE in Computer Science and Engineering

2021-2025

*Sant Gadge Baba University*

I have gained a comprehensive understanding of foundational principles and advanced concepts in the field. My coursework has equipped me with practical skills in programming languages, algorithms, data structures, and software engineering methodologies. Additionally, I have actively participated in projects and extracurricular activities, honing my problem-solving abilities and collaborative skills.

### HSC

2019-2021

*Maharashtra State Board*

"During my Higher Secondary Certificate program with the Maharashtra State Board, I focused on building a strong academic foundation while actively engaging in extracurricular activities. This period was instrumental in refining my time management and organizational skills as I balanced rigorous coursework with participation in sports.

## WORK EXPERIENCE

### Internship

2024-present

*Codsoft., intern*

I am immersed in the dynamic world of web development, gaining hands-on experience in front-end and back-end technologies. Collaborating with seasoned developers, I contribute to the design and implementation of responsive and user-friendly web applications. Through tasks such as [mention specific tasks or projects], I am enhancing my proficiency in HTML, CSS, JavaScript.

### Project

2024-present

*College Project*
